

# Soil & Erosion (K-8)

Get a great foundation in soils and related erosion problems! Learn about these topics through an interactive model that will be available for use in your classroom. There are also supplemental lessons and activities to keep your student's engaged. Engineered soils are also a highly important component in this field. Explore different soils and compost under a microscope and learn how to make compost with your students to explore this growing field.

When: April 16, 2010 (Friday) 4:00-8:00 p.m. &  
April 17, 2010 (Saturday) 8:00 a.m.-4:00 p.m.

Where: Retzer Nature Center  
514 W28167 Madison Street  
Waukesha, WI 53188

Cost: Due to grant support the registration cost for the first 15 participants is reduced to **\$50.00** for Waukesha County educators or **\$125.00** for educators from other counties. The tuition is also reduced to **\$50.00** per credit for Waukesha County educators and **\$75.00** for educators from other counties.
